

Certificate

This certificate recognizes that

Nexus for Development

has taken action to reduce its environmental impact and provide clean water to communities throughout Cambodia.

Nexus for Development acknowledges the following:

CO₂e emission reductions: 64 carbon credits (VERs) purchased and retired

Offsetting purpose: Offset 2018 GHG emissions for their operations

Date of retirement: 15 April 2020

GS Markit Registry
GS VER Serial #'s: GS1-1-KH-GS1020-16-2016-6574-75903-75966

Jennifer Louie, Nexus for Development Executive Director

Thank you for supporting
Hydrologic Social Enterprise

Hydrologic supports the local production and distribution of affordable water purifier technology to communities throughout Cambodia.

Purifiers improve public health, reduce environmental impacts, and stimulate local economic activity. Since its formation in 2001, Hydrologic has sold over 400,000 purifiers and is preventing 95,000 tonnes of CO₂e emissions from entering the atmosphere every year.
